

Meet Lena.

Lena is the **Production Manager** at a chemical products company.

She is responsible for keeping production running, quality high, and customers supplied.

Every day, she makes decisions that impact the company.

Today should have been a normal day.

It isn't.

TODAY'S SITUATION

Critical shipment delayed ⚠️

Inventory remaining **3 days**

Potential loss **€150,000/day**

A shipment is delayed.

Inventory remaining:

2 weeks

Potential loss:

€150,000/day
at risk

Managers want
answers.

The clock
is ticking.

Lena
Production Manager

IMPACT SUMMARY

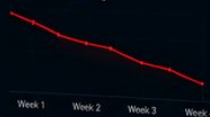

FINANCIAL IMPACT

€150,000/day
at risk

INVENTORY AFTER STRIKE/STORM

2 WEEKS
of stock remaining

SERVICE LEVEL RISK

High
Risk of stockout

FINANCE

Exposure

€3,6M

Button risk

Potential losses
€150,000/day

LIVE: SUPPLIER CALL

STORY CONTINUES

The Real Problem.

Lena doesn't need another alert.

She already knows there is a delay.

What she doesn't know is:

What should we do now?

WHAT ARE OUR OPTIONS?

1

WAIT

PROS

Lower cost

CONS

High risk of stockout and customer impact

2

EXPEDITE

PROS

Faster delivery, lower risk

CONS

Higher cost, margin impact

3

ALTERNATIVE SUPPLIER

PROS

Reduce risk, more control

CONS

Quality/lead time uncertain, switching cost

How DenkKern Helps.

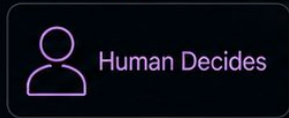

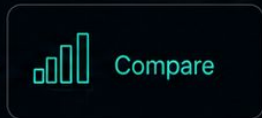

From data and alerts
to decision intelligence.

Why Now? Why Here?

The world changed. Companies changed. Technology changed.
Now, decisions must change.

THE WORLD CHANGED

Supply chains became less predictable

Red Sea disruptions

Port congestion

Geopolitical uncertainty

More volatile lead times

COMPANIES CHANGED

Less inventory

Leaner operations

Higher cost pressure

Faster decisions required

TECHNOLOGY CHANGED

More data available

Better visibility tools

AI can evaluate scenarios

Decision support became feasible

**MORE SIGNALS
≠
BETTER DECISIONS**

WHY WE START HERE

Because disruption-response decisions are:

- ✓ Frequent
- ✓ Financially measurable
- ✓ Cross-functional
- ✓ Repeatable

DELAYED SHIPMENT

INVENTORY RISK

PRODUCTION RISK

FINANCIAL IMPACT

DECISION

This cycle happens every day.

THE GAP TO CLOSE

Companies have invested in:

Visibility

Tracking

Alerts

But the next leap is:

VISIBILITY

DECISION INTELLIGENCE

Denkern transforms data and context into **better decisions—faster, together.**

Lower risk

Higher resilience

Stronger performance

Help Us Find More Lenas.

Our Mission

Prevent **avoidable losses**.
Enable **better decisions**.
Build **decision intelligence**
for operations.

Our Vision

From Visibility
to
Decision Intelligence.

Because better decisions
don't just protect companies.
They help people sleep
better at night.
